

MASSARANDUBA

PREMIUM HARDWOOD DECKING

Massaranduba is one of the most durable hardwoods available, naturally resistant to decay, insects, and the elements.

Its rich reddish-brown colour and fine texture make it an excellent choice for long-lasting, beautiful outdoor spaces.

EXCEPTIONAL DURABILITY

High strength and exceptional resistance to wear, rot and insects.

WEATHER RESISTANT

Naturally resistant to moisture and extreme weather conditions.

NATURAL BEAUTY

Rich reddish-brown tones with a fine, even texture for a premium finish.

EASY TO WORK WITH

Stable and strong – ideal for decking and outdoor construction.

WHY CHOOSE MASSARANDUBA?

- One of the most durable hardwoods in the world
- Naturally resistant to rot, fungi and insect attack
- High density for minimal warping and splintering
- Ideal for high-traffic areas and harsh environments
- Develops a beautiful silver-grey patina if left untreated or can be maintained with WoodArmour oils for lasting protection and colour.

PERFECT FOR

Decking & Patios

Walkways & Boardwalks

Pool Surrounds

Outdoor Structures

Jetties & Marine Environments
